

Industrial Design Graduate Internship (12 month)

Pershore, UK

JMDA is an award-winning, UK based product design consultancy. An opportunity has opened for an industrial design graduate to join us for a paid 12-month internship, with the potential for a permanent position.

As an industrial design intern, you will work on projects for a broad range of international clients. You will be expected to contribute to various phases of the product development process, applying your skills from university to assist the design team where required.

Skills and Experience:

- Ideally you have some real-world experience from a previous placement or internship. Relevant experience in automotive and/or child safety products would be advantageous but not essential.
- Exceptional visualisation and styling with a portfolio displaying your talent
- A great eye for detail
- Experience using Solidworks CAD (2D / 3D)
- Knowledge of Keyshot
- Familiarity with Adobe Photoshop and Adobe Illustrator to create graphics, instruction manuals, and manipulate images
- Comfortable in the workshop environment with strong model making skills
- Ability to think conceptually and share ideas clearly and quickly through a variety of medium
- Ambition and drive to go the extra mile – we only want the best!
- A team player, ready to share in the demands of a small business
- MS Office knowledge (Outlook/Word/Excel/PowerPoint)

Other requirements:

- Must be a UK resident or possess an EU working visa
- Clean driving license and independent means of transport is essential due to our rural location.

Qualifications:

- A strong degree (1st or 2.1) in Product Design, Industrial Design, Automotive Design or related discipline

Application:

To apply, please send your covering letter, CV and portfolio to design@jmdadesign.com
